Singular Suicides.

SANTA FE, April 7.—Details of Sunday's tragedy at White Oaks (N. M.), reached here to-day, the affair being a double suicide in which two handsome young women, formerly of Liberty, Mo., were actors. Some two years ago Miss Portia Hill came from Liberty to serve as governess in the family of Mrs. Ellis. At the end of a year she married Howard Doyle, a brother of Mrs. Ellis and a prominent ranchman. On their bridal tour they met an old friend of the bride, Miss Josie Ridgley, who replaced Mrs. Doyle as governess in the Ellis' home. Last Sunday Mrs. Doyle came on a visit to Miss Ridgley and the two were seen in a long conversation at various times during the day, avoiding other members of the family. In the afternoon they went for a walk and in an old corral near by their bodies were discovered an hour later. Over the heart of each was a bullet hole. They were clasped in each other's arms and between them was a revolver. No reason is known for the deed.

French Commercial Attaches.
PARIS, April 7.—The French government has decided to appoint at all its embassies and legations abroad, in addition to their attaches, officers who will be known as commercial attaches. It will be their duty to study the commerce and commercial relations of the country to which they are sent, and will be expected at all times to be ready to make any investigations or answer any questions concerning commercial affairs of the country they reside in. It is expected this step, which has been urged by merchants in France, will eventually lead to additional developments, improvements and extra facilities for export and import trade in this country.

Myrtle, the Martyr Hero.
PLATTSVILLE (Col.), April 7.—An accident occurred last night resulting in the death of Myrtle and Lottie Lumry, aged 6 and 4 years. Both children were busily engaged in starting a fire in a kitchen stove and used coal oil. The can exploded, setting fire to both the little ones. A baby was rescued from death by Myrtle, who snatched it from the floor while she herself was burning, and placed the baby between the feather bed and a straw tick, smothering the flames and saving the life of the infant.

P. T. Barnum Dying.
BRIDGEPORT (Conn.), April 7.—A bulletin was issued at 8 o'clock this morning which said Barnum is much worse and rapidly failing. He will probably not live 24 hours.

Barnum, at 2 p. m., was in a comatose state and slowly but gradually sinking. Doctors are constantly in attendance and watching every change. His family are gathered around his bedside.

French Financiers.
PARIS, April 7.—The shareholders of the Societe Des Depots et Comptes Courants held a meeting to-day to receive the official report upon the Secretary's affairs. The report holds the directors liable for the crisis and urges the society should pass into liquidation and that it should afterwards be reorganized.

Assistant Secretary.
WASHINGTON, April 7.—Ex-Representative Lorenzo Crooms of Nebraska accepted the office of Assistant Secretary of the Treasury, tendered him by Secretary Foster, and will be appointed by the President in a few days.

Republican Success.
HELENA (Mont.), April 7.—The Republicans yesterday elected the Mayor, Treasurer, Assessor and Police Magistrate. All but two of the Republican Aldermen were elected.

A Justice Retires.

LONDON, April 7.—A most affecting scene took place to-day in the Queen's Bench division of the High Court of Justice. It was occasioned by the fact that Judge Stephen, a Justice of the Queen's Bench, whose health is said to have become seriously impaired as the result of the worry and annoyance he was compelled to endure during and after the trial of the celebrated Maybrick poisoning case, had determined by advice of his friends to retire from the bench to-day.

All of Justice Stephen's fellow judges, including Lord Chief Justice Coleridge, were present. He replied in a broken, feeble voice to the high tribute paid to his integrity, ability and past services by Attorney General Sir Richard Cross and Webster. All present were profoundly impressed by the sad scene, and considerable emotion was displayed, as Justice Stephen in low tones thanked his colleagues for the good feeling shown towards him, and, with tears welling into his eyes, as well as into the eyes of many others there, he wished them good-bye.

War's Alarms.

LONDON, April 7.—Advices received here from several of the principal capitals of Europe show that the political situation on the continent is regarded as serious by leading statesmen and diplomats. Several significant moves have been made in the past few days. The action of the Russian authorities in doubling the strength of the Russian forces in Volhynia is gravely discussed in capitals of various countries. The greatest activity prevails among the troops garrisoning the principal fortified places of France. Troops are being continually drilled in the usual military tactics and in addition they have been subjected to a series of night alarms in order to test their ability to rapidly respond to a call.

Budapest, April 7.—Pesther Lloyd publishes an article to-day stating that according to semi-official news which have been received from Berlin, the general European situation is regarded in the German capital as threatening.

Wyoming Stockmen.
CHICAGO, April 7.—The annual meeting of the Wyoming stockmen was held here yesterday and was well attended by prominent cattle raisers being present from Wyoming, Colorado, Montana and Nebraska. John Clay Jr., of Chicago, acted as President of the meeting. Reports of officers show it to be in a good financial condition. Cattle have wintered well and prices have an upward tendency and stockmen anticipate a return of, at least, a part of the old-time prosperity in business.

Weather Report.
WASHINGTON, April 7.—Fair weather prevails in all districts east of the Rocky Mountains. The temperature has risen in the Southern States except in Florida, where killing frosts occurred last night. The temperature is from 10 to 12 degrees lower in the upper Mississippi and Missouri Valley, but elsewhere in the northern portion of the United States it has remained about stationary.

A Victim of La Grippe.
CINCINNATI, April 7.—S. S. Parker, Assistant General Passenger Agent of the Louisville and Nashville railroad, died this morning from an attack of the grippe.

Gold is Going.
NEW YORK, April 7.—Gold coin to the amount of \$1,400,000 has been ordered at the sub-treasury for shipment to Europe to-morrow.

County Expenses.
In the month of March it cost the county \$1,124.87 to keep her roads in repair and \$1,600 was spent in bridge building. The hospital cost the people \$401.50, and the criminal element put the tax-payers to \$492.30 expense. The total expense of the county government for the month was \$6,440.91, an average of over \$1 per capita for every man, woman and child in the county. In addition to the above there were \$846.60 spent for town purposes.

CANADIAN COMMENT.

Sir Charles Tupper's
Mission.

COLONIES WANT CONCESSIONS.

Sensation Over Parnell's
Marriage

To the Daughter Instead of
the Mother.

Canadian Comments.

TORONTO, April 7.—The Empire, the Government organ, referring to Tupper's mission to Washington, and the postponement of the discussion of trade matters, says: "While it might have been more satisfactory to have had the question at issue dealt with immediately, there seems to be no reason for regret in the circumstances which led to the postponement, as they are favorable to ultimate success."

The Globe says: "The result is a humiliating failure. The last hope of access to the markets of the United States through the Tory government seems to have disappeared and Canadians must reap the consequences of the folly, virulence and bungling of their rulers and of the recent indiscretion of a government which dare not move beyond the limits fixed by restrictionists."

The Mail says: "The whole course of the discussion and negotiations up to this point serves to show two things. First—That if any arrangement be reached it will not take the form of actual treaty, but of an agreement to submit to concurrent legislation, and, secondly, that the agreement shall be based upon natural productions only, is out of the question."

Sensational Surprise.

LONDON, April 7.—The relations of Parnell to Mrs. O'Shea have been rendered more mysterious than ever by recent reports. No declaration is yet made by Parnell himself, nor by any person authorized to speak for either of the persons concerned, that they are to be married when the divorce is made absolute. That period is now near at hand, and the friends of both are anxious that the ambiguous situation should be cleared up. Stories with more or less foundation culminated in a report yesterday that a marriage with Mrs. O'Shea would not take place, as Parnell had already married to another lady. The astonishment is increased to-day by the rumor that the lady in question is the daughter of Mrs. O'Shea, and that the marriage took place in secret, because, among other reasons, the young lady was a ward in chancery. The latter story rapidly spread in the lobbies of the Commons to-day, and is eagerly and variously discussed, but it finds few believers.

New Brunswick Lepers.

OTTAWA, April 7.—The report that Dr. Smith, the physician at the Tracadie Lazaretto, shows that leprosy, with which a few settlements of fishermen in New Brunswick have been afflicted for the past half century, is being slowly but surely eradicated. The policy of segregating which has now been pursued systematically for a number of years, has resulted in lessening the cases. At Tracadie, the original center of the disease, cases seem to have been almost extirpated and Dr. Smith expresses the belief that eventually the malady will disappear from all the communities where it has been the terror of the people. There are at present in the Lazaretto, eight male and ten females. Four new patients were admitted during the year, all from Carleton Place, Gloucester county, N. B. There were five deaths.

Colony Wants Concessions.

LONDON, April 7.—The government of Newfoundland appointed Francis H. Evans, the member of Parliament who so warmly espoused its cause, as a special commissioner with unlimited power to negotiate with Her Majesty's government a settlement of the difficulties between them in regard to the French fishery claims. Evans was advised by the Newfoundland authorities that it is necessary to secure an immediate concession of some kind to allay public feeling in the colony.

Republicans Carry Michigan.

DETROIT, April 7.—Returns from yesterday's election so far as received indicate the Republicans have carried the State by about 5,000 plurality. In the municipal election in the larger cities the Democrats made large gains.

Elections in Chicago.

CHICAGO, April 7.—Election day opened without a cloud in the sky and the temperature pleasant, though cool. The polls opened at 6 o'clock this morning and will close at 4 this afternoon. Reports received up to half-past eight show a very heavy vote is being polled. At seven o'clock the line of voters was awaiting their turn at nearly every voting district, and at 8 o'clock about one-third the entire registered vote appeared to have been cast. At noon a close estimate placed about two-thirds of the entire registered vote of the city in the ballot-boxes. This is unprecedented in the history of this city. Indications are that Chicago will poll the heaviest vote ever cast and that it will far exceed the number cast at the last election.

As expected, in view of the many sides and heated contests, there were a number of fights in the rougher wards, increasing as the day progressed. In an altercation in the first ward this afternoon, one man was shot and dangerously wounded.

At 3 o'clock this afternoon the Post, a Democratic organ, came out with an edition saying that Hempstead Washburne (Rep.) was in the lead.

The Journal, for Hempstead Washburne, says its candidate is elected. The News, for Elmer Washburne, and the Mail, for Cregier (Dem.), each claim success for their respective candidates.

Hessing, proprietor and editor of the State's Zeitung, says, in his opinion, Harrison (Rep.) has carried the city.

Strikers Resuming Work.

MOUNT PLEASANT, April 7.—Fifty more men went to work this morning at Morewood, making the total number at the ovens about a hundred. The arrests yesterday were followed by a number of others to-day. Considerable ill feeling was engendered against Superintendent Ramsey over the report that Frick would import men. Threats were made against him, and this morning a number of strikers gathered around his residence. As their actions aroused suspicion the militia were called out and the men were driven away. Several shots were fired but no one was hurt. Disturbances from various sections in the coke region indicate a partial resumption at different works. Operators are encouraged and assert they will soon have their plants in full operation.

The situation is more serious. This afternoon at 2:30 o'clock the South-west Coke Company notified Captain Laird that strikers were assembling in the vicinity of their works, ostensibly for parade. It is believed, however, a raid on the plant is contemplated. Reinforcements from the 10th regiment were sent to the scene with extra ammunition. The men are instructed to fire upon any one entering the lines.

The Pope on Ireland.

ROME, April 7.—At a reception given to the College of Cardinals to-day at the Vatican, His Holiness the Pope was asked by Archbishop Walsh for news regarding the situation of political and religious affairs in Ireland. The Pope spoke with pleasure of the united action taken by the Irish bishops and pronounced himself as being in warm sympathy with the Irish people. Adding that he anxiously hoped the Irish people would maintain confidence in themselves and in their country, in spite of present trials and difficulties to which Ireland and the Irish are subjected.

Why the Colonies Kick.

OTTAWA, April 7.—The Governor-General has decided not to interfere with the Manitoba school legislation laws of the last session. The legality of abolishing the French language in the official reports of the Province of Manitoba will also be dealt with by the courts. Two other acts passed by the Manitoba Legislature, one limiting operators in the province to companies incorporated by the Dominion Parliament, and the other setting up regulations for the quarantine of cattle crossing the frontier, have been disapproved.

Embassier Held.

NEVADA CITY (Cal.), April 7.—W. A. Spear who was arrested at Grass Valley on a charge of embezzling \$2,000 at Birmingham, Alabama, this morning attempted to secure a release by habeas corpus proceedings, but failed. The Sheriff is now on his way here from Birmingham to take the prisoner back.

Epsom Races.

LONDON, April 7.—This is the first day of the Epsom spring meeting. The principle event of the day is the race for three-year-olds and upwards, about two miles and a quarter. It was won by the colt Rigmund, Royal Gem second, and May Pole third.

A Blanket Mortgage.

ST. LOUIS, April 7.—A published interview with Gould is quoted as follows in reference to the report as to the proposition to issue a blanket mortgage covering the Union Pacific debt: "Yes, I think when the stockholders meet towards the last of this month, they have something to offer in that connection. Bonds covering the entire property and at a low rate of interest would be the most advantageous I think. The Union Pacific has 6,000 miles of track; only 1,400 miles of this is covered by a government lien which amounts in round numbers, less sinking fund, to \$50,000,000. Now as a matter of fact, it would not be such a terrible thing to the company if the government did take 1,400 miles and we had to reconstruct gaps in order to round out the system, but I think we will offer a blanket mortgage which will take care of the government lien as well as of other securities."

Denver Election.

DENVER, April 7.—The election to-day for Mayor is a lively one. Two tickets are in the field. A number of rows occurred in the Ninth Ward, where the judges refused to allow the "watchers" appointed by the committee of one hundred attendance to the doors and took their places by the judges' tables. The judges thereupon refused to take any votes and closed the ballot boxes. After some wrangling the voting continued. Up to noon over 100 men were arrested, charged with being repeaters. The vote is very heavy.

Death From Explosion.

BRADDOCK (Pa.), April 7.—Eleven men were seriously burned early this morning by an explosion of gas in a row of frame tenement houses. The men were all Hungarians and married. Firk Novosk, Seberak and Czenblyka will die, while others have a bare chance of living. The gas leaked from unused pipes of the Natural Gas Company and when it was ignited by a lighted match it exploded, demolishing the building and injured the occupants.

Murder Trials.

MENARD (Cal.), April 7.—In the Olsen case to-day, Bennett Warren and Eugene Selemo were called as witnesses, but no testimony of importance was brought out. Hale, accused of the murder of Mrs. Lottie McDowell, was brought into Court, but his trial was continued until the 23rd inst., at request of both sides.

Policeman Killed.

BIRMINGHAM (Al.), April 7.—At Blocton, Bibb county, last night, Marshal Anderson and policeman Wood made a raid on the negro dive. Wood was shot and instantly killed. Anderson shot and fatally wounded Jake Smith, one of the negro gamblers; the other negroes escaped.

General Ruger.

ST. PAUL, April 7.—It is announced at army headquarters here that the rumor naming General Thomas P. Ruger as the successor of General Gibbon in the command of the Division of the Pacific is correct and that General Ruger will proceed to San Francisco on April 20th.

Close in Kansas City.

KANSAS CITY, April 7.—To-day women are voting more heavily than ever before. The contest between J. C. Stout (Democrat) and Thomas Hanner (Republican) for Mayor, is lively and close, and considerable excitement is manifested about the polls.

The Thistle Sold.

BERLIN, April 7.—The famous Scotch cutter, Thistle, well known as the boat defeated in the international race for the American cup at New York by the American yacht Volunteer, has been purchased by Emperor William.

Snow in California.

NEVADA CITY (Cal.), April 7.—A wet snow has been falling all night and this forenoon in town. In some parts of the county some kinds of fruit are sufficiently advanced not to be injured by the storm.

Rain at Auburn.

AUBURN (Cal.), April 7.—It rained steadily all night, with a heavy snowfall in the mountains. The rain to date measures about 20.5 inches. Last season it was 41 inches.

MARRIED.

McCLURE-FERRARO—In Winnemucca, Nev., April 5, 1891, by Father Gartland, George R. McClure to Miss Celia M. Ferraro. READ-BORLAND—In Candelaria, March 29, 1891, Ed Read of Candelaria, to Miss Julia Borland of Bishop.

DIED.

CORVELL—In Salt Lake, Utah, April 5, 1891, Wm. M. Corvell, son of Alex. R. and Mary D. Corvell, a native of Yreka, Cal., aged 25 years and 5 months. MOONEY—At Hudders, March 29, 1891, Patrick Mooney, a native of Ireland, aged about 65 years. COBB—In Virginia City, April 4, 1891, Alma, only daughter of W. H. M. and Emily W. Cobb, aged 4 years 2 months and 20 days.

5 O'CLOCK EDITION

We pride ourselves on living in an age of discovery and invention and pity our ancestors for being born too soon. Yet much of this is misplaced. The real truth seems to be that the ancients knew about everything that we know, only the knowledge was not generally diffused.

The learned man of two or three thousand years ago was so far superior to the majority that he was regarded as a wizard and prudently kept his learning to himself.

In our schools at the present day we use "Euclid's Elements of Geometry," written by Euclid 2,300 years ago. Euclid also wrote on music and optics, antedating much which we think we discovered.

The science of optics must have been pretty far advanced in his day, because we know that Alexander the Great had a copy of the "Iliad" inclosed in a nutshell, and it is quite certain that it could not have been written without the aid of a microscope.

Layard found in the ruins of Nineveh what Sir David Brewster pronounced to be a "magnifying glass," and nearly four thousand years ago the Egyptians and Assyrians observed the stars through a "sliding tube," which we have reason to believe was a telescope.

We make some very fine razors at the present day, but we can not make any finer steel than that contained in the Damascus swords and knives which the ancients used several thousand years ago.

At the same time the people of Tyre were such expert dyers that the Tyrian purples remains unexcelled to this day. The Egyptians were also wonderful dyers, and could produce colors so durable that they may be called imperishable.

The ancients were wonderful glass-workers, and discovered a method of making it malleable, which we have not been able to do. They could spin glass into garments, dye it in every shade of the rainbow, and etch it with marvelous skill.

The ancient Gauls used a reaping machine. Hobbs gave his name to a lock found in the tombs of Egypt. Natural gas conveyed in bamboo tubes was utilized in China centuries ago, and one of the Mongolian authors writes of boxes which repeated the sound of voices of men long since dead—an approximation to the phonograph of Edison.

In medical skill the oriental physicians of India practiced vaccination 1,000 years ago. Anesthetics were known in the days of Homer, and the Chinese 2,000 years ago had a preparation of hemp, known as "una yo," to deaden pain—something similar to the modern cocaine.

Coins were stamped with engraved dies so far back that we have lost the record, and movable types are said to have been known to the Romans.

Twenty centuries before the birth of Watt, Hero, of Alexandria, described machines whose motive power was steam. He also invented a double force-pump, used as a fire-engine, and antedated the modern turbine wheel by a machine he named "Neopile."

Electricity derives its name from the Greek word for amber, elektron, because Thales about 600 B. C., discovered that amber, when rubbed, attracts light and dry bodies, and in the twelfth century the scientific priests of Etruria drew lightning from the clouds with iron rods.

All the mechanical powers, the screw, lever, pulley, incline-plane, wedge, wheel and axle, were known to the ancients and used in every day life. They were expert builders, as existing relics testify.

In all that pertains to scripture and painting the ancients knew so much that their superiority has never been questioned and their work remains as unsurpassed models.

We may say with truth that much of our boasted light and mechanical wisdom is but the match put once again to the old candle of our ancestors. The old times were days of war and oppression, and the inventor hid his invention for fear of being robbed. The vast majority had no money

to buy a laboring device, even if they had brains to use it. It was not a practical age, and the knowledge, as well as wealth was confined to the few. Now-a-days an invention of value spreads over this world like a flash of gunpowder, and in the light of modern common sense, the invention of the common friction match has doubtless done more for the good of mankind than all the discoveries of antiquity.

We doubt if the county will save much in advertising for bids for medical attendance at the county hospital. It costs now one hundred dollars per month for medical services for the county indigent sick. The new order provides for a visit every day in the year to the poor farm and if a physician furnishes the medicine and attends to his duty that is cheaper by at least fifty dollars per month than an individual living on the site of the poor farm could get medical attention for. A physician will not write a prescription for an individual for less than two dollars and a half and he charges from that to fifty dollars a visit, according to the distance he travels. If the county gets good medical attention for what it costs individuals the Commissioners and the taxpayers ought not to growl. If it would shut off a lot of its charities to indigent people in good health and force them to go to work or leave the county—such calamities as old Small and his tribe for instance—the expenses would be materially reduced. They may get some quack to agree to kill every patient furnished him for much less, however, by advertising for bids. The merits of the service rendered cuts no figure in the case, one man's bid is as good as another. It matters not whether he has devoted a life time to the study and practice of medicine, or whether he has a diploma or not so long as he agrees to do the work. That at least is all that is required by the wording of the advertisement.

WELL informed commission men in Chicago and Omaha do not hesitate to say that ripe range steers from the Northwest will bring \$6 per hundred, live weight, on the Chicago market the coming fall. Of course they are liable to be mistaken, just like other mortals, but the signs all point that way. Sixty dollars for a thousand pound steer will make the brethren begin to feel that the long-looked-for happy day has come.

HONORS ARE EASY. Official Absenteeism is becoming chronic.

The Eureka Sentinel of Saturday has two significant paragraphs, which read as follows: Our old "Nasby," M. B. Bartlett, left last Monday on a month's recreation trip to California and the new State of Washington. W. J. Smith, our new Postmaster, who has been in poor health for some time, left on Wednesday last for a visit at the Bay.

Here are two cases of absenteeism, in which the retiring official leaves the State as soon as his term is up, and the new one places a deputy in charge of the office and leaves in advance. But then the honors are easy, for the old "Nasby" is a Democrat and the new one is a Republican.

Sugar Beet Industry. At Chino, San Bernardino county, Cal., about 4,000 acres will be planted to sugar beets this year. The factory building is about ready to receive the root, and a hundred carloads of machinery will soon be there. The building is of brick, 90 by 300 feet, and part of it is five stories high, and the main building is three. The contract calls for its completion by August 1st.

The Cotton Belt. The Fische Record of April 2d says: "Planting time has begun at Panama, while in the Muddy Valley, 125 miles further down Meadow Valley Wash, the crops are already half grown."

That is away down in the cotton belt of Nevada, which will some day be famous for its semi-tropical products.

Another Little One Gone. Death has snatched from Harry Cobb and wife of Carson a tender little plant. Their sweet baby, four years old, departed this life on Saturday in Virginia and was laid to rest in Carson this afternoon. Mr. and Mrs. Cobb have many friends in Reno and Wadsworth who will be pained to learn of their loss.

Sugar. W. O. H. Martin received yesterday a car load of sugar with the duty off. He has sugar enough now to keep the whole State sweet for a time.

COMMERCIAL DRUGGISTS commit fraud in substituting any other porous plaster when BENSON'S is asked for. They do so in order to make more money out of you by selling you something that costs them less. Beware of worthless imitations.

Steady Progress Has characterized Hood's Sarsaparilla ever since it was placed before the public. Whichever introduced, its sales have grown from year to year, until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The secret of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably certain to be of benefit.

MISCELLANEOUS.

Steady Progress

Has characterized Hood's Sarsaparilla ever since it was placed before the public. Whichever introduced, its sales have grown from year to year, until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The secret of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably certain to be of benefit.

Positive Statements. "Since Hood's Sarsaparilla has been in my hands for sale I have had frequent and unreserved testimonials in its favor. Although carrying this preparation for less than one year, my sales have been greater than of any similar preparation, and the testimonials in its favor are at once positive and personally noticeable." A. WAGNER, Headache, Cal.

Sells On Its Merits. "My boys say, 'Papa, why don't you buy more of Hood's Sarsaparilla at a time? we are always short.' It sells on its own merits." P. B. FARLAND, Oregon; the oldest druggist in Oregon.

N. B. Be sure to get only Hood's Sarsaparilla Sold by druggists. Six for \$5. Prepared only by C. A. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, neuralgias and fevers, and cures habitual constipation. KING PHILLIP SMOKING TOBACCO.

KING PHILLIP SMOKING TOBACCO.

OPERA HOUSE DRY GOODS STORE.—C. W. BOOTON.

To the Business Men and Citizens of the State of Nevada:

The time has come when I am compelled to plead my own cause in this boycotting business. First, I will acknowledge that I signed the first contract to close at 8 o'clock, also that I did all I could to carry it out and help the League, but as it has been my misfortune to have reverses in business, and as I was compelled to raise money for parties that I owe, I went to the Clerk's League at a meeting on two different occasions, and told them it would be impossible for me to close at 8 o'clock.

Now, when the League says that I, on different occasions violated my pledge, all I can say and can prove, and that by Mr. Al Wilson, who is a member of the League, that it is FALSE, as Mr. Wilson has been in my employ since the contract was signed.

So far as my word is concerned, it is for the people to say, and not for the League to publish such trash to the entire State. I will further state that when the time comes that a few boys try to pull down and degrade a man when he has the misfortune that I have had, then it is high time to sell out and let the boys run the town.

Respectfully, C. W. BOOTON.
